2006 International 4300 Dt466 Engine

I have a 2006 International 4300 with a DT466. The truck works great when it works. It originally was towed in because the engine shut off on the highway. Our original diagnosis pointed to the IPR. We replaced it and it worked great. We did find small metal shavings in it. Replaced filters, etc. It was towed in a second time about a week later.
