Use of any of the ACLS medication in Table 1 should be done within your scope of practice and after a thorough study of the actions and side effects. This table only provides a brief reminder for those who are already knowledgeable in the use of these medications.

ACLS Pharmacological Tools Guide

The best way to prepare for advanced pharm is to be up on your basic pharm. I had about 4 years in between the two classes and so had to re-learn a lot of the basic stuff during advanced pharm. But if you have less time in between or time to study basic pharm before the class, that would probably make it easier.
